

OFFSHORE

Royston   
diesel power

skills integrity partnership

Seeing the bigger picture, we understand that you really can't afford a breakdown, so we keep an eye on efficiency, safety and cost, with a service that offers:

- A genuine 'one stop' option for all your diesel power needs
- Highly skilled offshore certified engineers available 24 hours a day
- Close associations with OEMs ensures genuine spares... every time
- The prevention of costly breakdowns with our remote engine monitoring system
- On line visibility of engine maintenance with our Asset Register interactive resource tool

Maintaining diesel power with safety in view

Working globally with bases in the UK and Australia, Royston has been established for over 30 years.

Our highly experienced team of engineers and project managers are multi disciplined across a wide variety of engine types.

Risk Assessment and Method Statements are used on every project.

We are official dealers for GE Marine, Niigata, Volvo Penta, Cummins and Scania.
